

About the Author

About the author, Sharon McMahon is a distinguished educator, historian, and public speaker widely known for her commitment to civic education and her mission to combat misinformation. With a background in government and law, McMahon spent years teaching high school students, instilling in them a deep understanding of American history, democracy, and the legislative process. As political polarization and misinformation became increasingly prevalent, she recognized the need for accessible, unbiased, and fact-based explanations of governance. This realization led her to launch her now-famous Instagram account, Sharon Says So, where she simplifies complex political topics in a way that is engaging, nonpartisan, and easy to understand. Through this platform, she has gained a devoted following, with millions turning to her for clear, straightforward discussions on law, the Constitution, and the functions of the U.S. government.

In addition to her social media presence, McMahon is also the host of the highly acclaimed podcast Here's Where It Gets Interesting, which delves into lesser-known aspects of U.S. history, highlighting pivotal events and figures that have shaped the nation. Her storytelling ability brings historical events to life, drawing connections between the past and present to help listeners better understand the political and social landscape of today. She is also the founder of The Preamble, a newsletter that provides insightful historical context for current events, allowing readers to stay informed with fact-checked, reliable information. McMahon's ability to break down complicated legal and governmental concepts has positioned her as a trusted source for individuals seeking to navigate today's often confusing political environment with clarity and confidence.

Beyond her role as an educator, McMahon has made a significant impact through her philanthropic work, using her platform to drive real-world change. She has led various

fundraising initiatives that have collectively raised over \$9 million for numerous causes, including funding teachers in underprivileged schools, assisting domestic violence survivors, helping clear medical debt, supporting critically ill children, and providing aid to refugees. Her activism highlights her deep commitment to service, emphasizing that informed citizens should not only seek knowledge but also act upon it to improve their communities and the world around them. Through these efforts, she has demonstrated the power of collective action and grassroots movements, encouraging her followers to be more engaged in philanthropy and civic responsibility.

McMahon's influence extends beyond social media, podcasts, and newsletters—she has also become a sought-after speaker, sharing her expertise on civic engagement, misinformation, and historical literacy. She frequently gives lectures and participates in discussions on democracy, voting rights, and the importance of understanding government processes. Her work serves as a reminder that an informed society is a powerful one, and she continues to inspire individuals to think critically, ask questions, and participate actively in shaping their communities. Through her engaging approach, McMahon proves that civic education doesn't have to be dull or intimidating; instead, it can be dynamic, enlightening, and, most importantly, accessible to all.

Through her tireless dedication to education, storytelling, and activism, Sharon McMahon has cemented herself as one of the most influential voices in contemporary civic discourse. Whether through her engaging social media content, in-depth podcast episodes, philanthropic initiatives, or live discussions, she remains steadfast in her mission to equip people with the knowledge they need to be active, informed, and responsible citizens. Her work is a testament to the idea that education is a lifelong journey, and she continues to empower people of all backgrounds to engage with history and governance in meaningful ways. In a world increasingly plagued by misinformation, McMahon stands as a beacon of truth, proving that facts still matter and that knowledge truly has the power to change the world.
